

Personal Data:

Name: Yaroslav Muzichuk

Date of birth: 10/10/2000

Location: Ukraine, Kiev

Mobile: 0954824510

E-mail: yarukmuzichukpro@gmail.com

LinkedIn: [linkedin.com/in/yaroslav-muzichuk](https://www.linkedin.com/in/yaroslav-muzichuk)

Desired Position: Junior/Trainee Test engineer

Goals:

- Find an interesting work in a company of smart, active and sociable people;
- Start a career as junior test engineer and upgrade my skills in testing and QA to become "Someone who make a difference" in a project;

Skills:

Clear understanding of software testing theory (SDLC, STLC, test artifacts, types of testing, bug life cycle, goals of testing, test design techniques, principles of testing, difference between QA/QC/Testing).

Very strong attention to detail, good analytical skills and logical approach in testing.

Experience with test case management system – TestLink (Creating, editing test suites, creating test plan, adding test cases to plan, executing test cases); bug tracking system – Mantis (Creating bug reports).

Experience in working with MySQL (writing simple requests: select, insert into, update, like, joins, create/drop/alter table); Git (writing simple commands: git init, add, config, status, commit, checkout, push, branch, merge, pull, clone); Postman (writing requests: get, post, put, delete)

Familiar with Web technologies (Rest API, HTML/CSS, HTTP, SOAP, DOM, OSI, TCP/IP)

English level: Intermediate.

Other information about me:

I'm a first year student at NAU. I prefer a healthy lifestyle like running, street workout, going into the gym and free of bad habits. I'm trustworthy and active person with great desire to develop.

All sources how I studied QA:
